PROFESSIONAL SUMMARY

Information Technology graduate with a Diploma in Software Development and an Advanced Diploma in Application Development and currently pursuing a BSc Honours in Computing. Strong foundation in software development, problem-solving, database systems, and digital technologies. Demonstrated ability to learn new systems quickly, work collaboratively, and manage multiple academic and technical projects simultaneously. Seeking to gain practical industry experience through a graduate development programme where I can contribute technical knowledge while developing professional and leadership skills.

EDUCATION

Bachelor of Science Honours in Computing

University of South Africa

In Progress

- Core Modules: Research Methods and Proposal, Machine Learning, Natural Language Processing, Software Project Management, And Enterprise Architecture.

Advanced Diploma in Information Technology (Application Development)

IIE Rosebank College, Pretoria CBD

February 2025 – December 2025

- Achieved my degree with distinction and strong emphasis on Applied Programming, Application Development and Work Integrated Learning.

Diploma in Information Technology (Software Development)

IIE Rosebank College, Pretoria CBD

February 2022 – December 2024

- Achieved my degree with distinction and strong emphasis on Open-Source Coding, Programming, and Work Integrated Learning.

Matriculation

Hoërskool Pretoria-Wes, Pretoria West

January 2017 – December 2021

- Achieved a Diploma pass with emphasis on Business Studies and Computer Applications Technology.

EXPERIENCE

Freelancer/Informal IT Support

Self-Employed

February 2024 – Present

- Resolved software, hardware, and Microsoft Office-related issues for students and peers, reducing downtime during academic projects and assignment submissions.
- Provided technical guidance on document formatting, file conversion, and digital collaboration tools to support academic productivity.
- Assisted users with troubleshooting common Windows, Microsoft Office, and software configuration issues.
- Maintained accurate documentation and organisation of academic project files across multiple modules and development projects.
- Collaborated with peers on software development assignments, contributing to system design, testing, debugging, and project delivery.

Peer Learning Support

Academic Environment

February 2024 – December 2025

- Resolved 20+ software and system issues for peers, improving workflow efficiency during academic deadlines.
- Assisted users with Microsoft Word, Excel, and PowerPoint, helping complete assignments faster.
- Converted and formatted ensuring submission-ready quality.
- Set up and configured computers for basic use, reducing setup time for new users.
- Provided ongoing technical support, improving user confidence with everyday computer tasks.

CORE COMPETENCIES

- Software Development Fundamentals
- Microsoft Office Suite (Word, Excel, PowerPoint)
- Technical Troubleshooting
- Database Concepts and SQL
- Systems Analysis and Problem Solving
- Research and Information Management
- Documentation and Reporting
- Time Management

- Team Collaboration
- Adaptability and Continuous Learning
- Professional Communication

ACADEMIC PROJECTS

Software Development Projects

- Developed software applications using object-oriented programming principles as part of diploma and advanced diploma coursework.
- Designed and implemented database-driven solutions using SQL concepts and data management techniques.
- Produced technical documentation, system analysis reports, and project presentations aligned with software development methodologies.
- Applied problem-solving and analytical skills to identify, diagnose, and resolve system and application issues throughout project lifecycles.
